www.linkedin.com/in/eshikarupani2519
• Mumbai, IN

Technical Proficiencies:

Skills: Java, Data Structures, JavaScript, C, HTML, CSS, Typescript, Python, MySQL, PostgreSQL, React, REST API, Node.js, Express.js, React Material UI
Tools: Git, Figma, IntelliJ, Canva, PyCharm, VS Code
Frameworks: Bootstrap, Angular, SpringBoot

Education:

SSC – Hare Krishna NCT Convent High School, Ulhasnagar-421004- Percentage-93.4%
HSC – Smt. CHM college, Ulhasnagar-421003- Percentage-84.33%
Bachelor of Engineering Student in Computer Engineering – Thadomal Shahani Engineering College, Mumbai, IN Current GPA: 9.8

Projects:

Maa Reminds – Angular, Node.js, Express, MongoDB:

• Developed a **medicine reminder web app** with CRUD operations for medicines and appointments.
• Implemented **SMS notification feature** to remind users about medicine and appointment timings.
• Designed system to **track and store missed dosages** for health monitoring.
• Added functionality to **manage stock levels** and send alerts when medicine quantity is low.

Sawc.in – React, Material UI, Node.js, Express, MySQL:

• This is a web app having user as well as admin side pages for an NGO named SAWC
• Has basic CRUD and **search** features for NGOs as well as Volunteers
• Has user **JWT authentication** at the time of login, to see if user is admin for allowing operations on NGOs or Volunteers
• Admin gets **dynamic dashboard** based on current NGOs and Volunteers

Attendify-A smart attendance system using Face Recognition – Python, OpenCV, MySQL:

• Built a real-time **face recognition attendance system** using OpenCV to detect and identify students.
• Created a **student registration module** to capture face data with all student details.
• Automated attendance logging by **saving name, roll no., date, and time** into CSV files.

Student Management System – Angular, SpringBoot, MySQL:

• Implemented **CRUD operations** (Add, Update, Delete, Search) with JDBC connectivity.
• Designed an intuitive GUI with Angular components like **forms and tables** for data display.
• Created normalized MySQL database schema for storing student details and academic data.
• Added **search/filter functionality** and **form validation** for accuracy and ease of use.

Work Experience:

1. Worked as a Software Developer Intern at BlueStock Fintech for 2 months from 01-07-25 to 30-08-25.
2. Currently working as a Full Stack Developer Intern at AD Web Technology.
