# AYAZ AHMED KHAN

+91 7738312576 | LinkedIn | GitHub | LeetCode| ayazkk05@gmail.com

## Education

**KJ Somaiya Institute of Technology**, Mumbai 2022 – 2026
Bachelor of Engineering in Information Technology, University of Mumbai

## Experience

**Capabl India** Jul 2025 – Aug 2025
*Generative AI Intern*

- Built AI financial agent extracting acquisition history and ownership insights from last 5–7 years.
- Structured company data on stakeholders, ownership changes, and merger events.

**CodSoft (Remote)** Jan 2025 – Feb 2025
*Machine Learning Intern*

- Developed recommendation, churn prediction, and spam detection models end-to-end.
- Worked on preprocessing, training, evaluation, and deployment preparation pipelines.

## Projects

**End-to-End Data Science Project** | Python, Flask, Scikit-learn [Github] 2025

- Designed a complete churn prediction pipeline with robust preprocessing, feature engineering, and scaling.
- Trained and evaluated Logistic Regression, Random Forest, and XGBoost models using industry-standard metrics.
- Deployed the best-performing model via a Flask web app for real-time business decision support.

**Real-Time Transaction Audit Log System** | Django REST, PostgreSQL, React [Github] 2025

- Implemented secure atomic fintech transfers using transaction.atomic() and row-level database locking.
- Designed comprehensive audit logs capturing both SUCCESS and FAILED transactions for compliance and debugging.
- Built a responsive real-time React dashboard for live balance monitoring and transaction history tracking.

**Psychiatric Voice Emotion Analysis System** | Python, Librosa, TensorFlow [Github] 2025

- Developed an MFCC-based speech emotion recognition pipeline for automated psychiatric assessment.
- Implemented speaker diarization with unsupervised clustering for accurate speaker-wise emotion analysis.
- Deployed the full system via Flask with live audio recording and interactive clinical dashboards.

## Skills

**Languages:** HTML, CSS, JavaScript, SQL, Python, C++, Java
**Frameworks:** Flask, TensorFlow, Keras, Django REST,React JS
**Databases:** MongoDB, MySQL, PostgreSQL
**Tools:** Git, GitHub, Docker, AWS, Power BI, Tableau, MLflow, DVC
**Domains:** Machine Learning, AI, Generative AI, Computer Vision, Deep Learning

## Achievements & Activities

**Certifications:** AWS Academy Graduate, SQL (HackerRank), Generative AI Capstone
**Leadership:** Chief Organizing Officer IET KJSIT
**CP:** 200+ problems solved on LeetCode
